EUROPEAN HYDROGEN ENERGY CONFERENCE 2022

18-20 MAY 2022
COMPLEJO DUQUES DE PASTRANA, MADRID

THE FAST TRACK TO THE HYDROGEN ECONOMY

#EHEC2022
In the path towards **climate neutrality by 2050**, many technologies will need to step up to decrease CO₂ emissions. Amongst them stands **hydrogen**.

Spain has committed to European guidelines with ambitious objectives on its **Spanish Hydrogen Roadmap** (October 2020) allocating **1.5B€** to green hydrogen projects until 2023 through the **Recovery, Transformation and Resilience Spanish Plan & 16.300M€** through the **PERTE ERHA**.

The **European Hydrogen Strategy** (July 2020) considers the development and implementation of sustainable solutions based on hydrogen **crucial** for climate-neutrality goals in Europe.

This edition of the **EHEC** is set at a **key time** for the **fast-growing clean hydrogen industry worldwide**. It will bring the latest breakthroughs in the research and business sector to a worldwide audience, showcasing cutting-edge hydrogen and fuel cell science a technology.

Mission
Promote and foster hydrogen technologies development and deployment in Spain, with the objective of building a favorable environment to strengthen and put into value the national and international industry.

Vision
Hydrogen plays an essential role in energy transition, offering great opportunities for economic growth and environmental benefits. As an energy vector, it is crucial to achieve the decarbonisation of the Spanish economy, and the aim of net-zero emissions by 2050. Hydrogen will reactivate, redefine and transform the national economy, building a strong technological and productive network and thus creating highly qualified jobs.
